

LED Strip flex 120pcs SMD 2835 /m

Features:

- 1.This flexible LED strip soldered 120pcs White SMD 2835 LED lamp in one line.
- 2.Flexible PCB:White ,PCB Width 10mm.
- 3.Cutable each set of 3 LED.
- 4.DC12 constant Current operation. Voltage drop from start to end of $12M\pm 2v$.
- 5.Each end soldered a 2 Pin bare wire 20AWG at 15cm length.
- 6.Customized length. Available
- 7) Double cooper layer & 2Oz PCB with 2 sides membrane cover the pcb board. make sure the cooper no drop from the pcb board .
- 8)10mm width PCB , 0.25mm thickness with 3M tape back side for non-weatherproof version .silicone clips installing for waterproof version
- 9)waterproof Ip 20/65/67/68 available

Product Parameter:

P/N	LED Quantity	Pad length	Voltage(V)	Power (W/m)	LED Brand	Luminous(LM)	Waterproof
S010120-2835	120leds /M	every 50mm	DC12V	20W(max)	sanan	1800LM	IP65/67/68

Packing details:

5m /roll , 5roll /bag , 100rolls/carton, carton size :46.5*26*46cm
weight : 9.5kg/carton

Waterproof version type:

IP ranking:

IP22 Nonwaterproof

IP67 Waterproof A: Epoxy gel + "u" PC tube

IP65 Waterproof B: Silicon tube (removeable)

IP65 Waterproof C: Dropping Epoxy gel

IP68 Waterproof D: Silicon gel injected
